

Hippo Productions

Optional Extra's

	Description
Bridal preparation	This includes the hair, makeup and final dressing of the bridal party. This normally involves up to 4 hours of filming which is edited down to 10 – 20 minutes of finished film. This will be set to the music of your choice.
Grooms preparation	The groom and his party will be filmed getting ready for the big day. This is a moment the bride never sees and edited down to 10 – 20 minutes of finished film. This will be set to the music of your choice.
Videoining of wedding rehearsal	Often some of the funniest and natural parts of the wedding day can be at the rehearsal. The nerves are yet to set in and often it is a time of joy and family gathering. We will film this for you and then edit it down to a 10 minute highlight set to the music of your choice.
Videoining of photo shoot	We will follow the bridal party as they have their wedding photos taken, this will be edited down to 10 – 20 minutes of finished film. This will be set to the music of your choice. As a professional courtesy please ensure your photographer is advised that we will be filming the photo shoot.
Love story	When couples get married this is both the end and beginning of your new and old lives. We will create a documentary of how you met, including photos and interviews with friends and family. You can both record special messages to each other that will be treasured for years to come. We will also ask up to 4 other people of your choice to record their own special message to you both. The finished product will contain photos, music and video and will be up to ½ an hour long.
Best wishes	Many people would love the chance to send the bride and groom message of encouragement and to bless their new lives together. We will film as many of your guests as possible during the reception and add this in to the finished DVD. This is dependant of the participation of the guests.
Inclusion of honeymoon photos	This option can add to the overall feel of the final DVD. We will include up to 50 of the photos you take from your honeymoon plus up to 1 hours video footage. We will then edit this down to a photo/video montage set to your choice of music.

Hippo Productions

Optional Extra's

Optional extra	Description
3rd camera	This is only for the Silver package (as the Gold package includes the third camera). An extra camera set on a wide angle at the back of the venue to help add to the finished DVD.
Extra copies of the DVD	The DVD's are open zoned so they can be played anywhere in the world. Great idea to send to those friends and families unable to make it to the wedding day.
Wedding photography	If you order our extended wedding package we can also offer you an option to use Hippo Productions to be your wedding photographer. Our photographer is in training and our prices reflect that, have a look at her recent work on our weddings photography page.
